In a bombshell article on Oct. 10, The Guardian revealed that former British Prime Minister Boris Johnson's privately-owned company received £1 million ($1.3 million USD) from billionaire tech oligarch Christopher Harborne after he left office.

The article claims Harbone accompanied Johnson on his two-day visit to Ukraine in September 2022. J-Speak's own Rick Sanchez delves into the report and Johnson's role in the Ukraine War.

Boris born in NYC , Manhattan, Johnson renounced his US citizenship to avoid tax on selling real estate in NYC not long before he became the UK prime minister .... he basically had to resign before his term ended due to holding parties, booze etc, while the country was on " lockdown " during the plandemic- scamdemic period.. .

Now we know. The cost of a soldier's life is 1 pound. Thanks Boris for clearing that up since 1 million soldiers have died in Ukraine since your meddling.
